Professional Summary

A highly motivated and technically proficient B. Tech Computer Science student with a strong foundation in software development, problem-solving, and algorithm design. I continually update my skills with emerging technologies like cloud computing and machine learning to bridge technical excellence.

Education

B. TECH COMPUTER SCIENCE
SRM Institute of Science and Technology
06/2022 - Present
CGPA: 9.69

12TH CBSE
Prince Uch Madhyamik Vidyalaya
05/2020 - 07/2021
86.8 %

10TH CBSE
Jhunjhunu Academy Wisdom City
05/2018 - 05/2019
95 %

Skills & Abilities

- Java, C
- HTML, SQL
- Data Structures & Algorithms (DSA), SDLC
- Machine Learning (ML), Artificial Intelligence (AI), Communication Networks
- Project Management, Teamwork
- Effective Problem Solving, Analytical Skills, Quick learner

Certifications and Certificates

- GitHub Foundations, 06/03/2025 – 06/03/2028, GitHub
- Communication Networks, 04/15/2025, NPTEL
- Oracle Cloud Infrastructure 2024 Certified Foundations Associate, 02/04/2025 – 02/04/2026, Oracle
- Networking Basics, 10/20/2024, Cisco Networking Academy
- Machine Learning Foundation, 02/13/2024, AWS ACADEMY
- Programming in Java, 10/15/2023, NPTEL

Language skills

- English (Full Professional Proficiency)
- Hindi (Native or Bilingual Proficiency)
- French (Basic Proficiency)

Work Experience

- Software Development Intern, The Pixel Land (Ghaziabad, Uttar Pradesh |December 2023 - January 2024)
  - Collaborated with cross-functional teams to design, develop, and deliver high-quality software products on time.
  - Attended development team trainings, daily meetings, and huddles.
  - Streamlined development processes by implementing agile methodologies and best practices.

- Bharat Intern (Remote |December 2023 - January 2024)
  - Designed and built a responsive Netflix clone and a weather forecast website using HTML and CSS.
  - Implemented structured layouts and optimized UI performance for a seamless user experience.
  - Gained practical experience in frontend web development and design principles.

Projects

- E-Ticketing and Online Railway Management System, (Jul 2023 – Oct 2023)
  - Designed and developed a web-based railway reservation system using Java, SQL.
  - Implemented secure user authentication and a real-time booking feature ensuring 99.9 % of efficiency.
  - Enhanced database efficiency by optimizing SQL queries, reducing response time by 40%.

- Weather Prediction using ML Techniques, (Jul 2024 – Nov 2024)
  - Developed a machine learning model to predict weather conditions using KNN, Random Forest, and Logistic Regression.
  - Processed meteorological datasets and optimized model accuracy through feature engineering.
    .

Extracurricular Activities

- Achieved 4th position in Hack Fusion 2024, a prestigious hackathon organized by NIT Jamshedpur, demonstrating strong problem-solving and technical skills.

- Secured finalist position in Foundathon 2024, a competitive hackathon hosted by the SRMIST Founders Club, demonstrating innovation, problem-solving, and collaborative expertise.

- Volunteer, Parmarth Seva Samiti Orphanage (1.5 months): Assisted staff with daily operations and supported educational activities by teaching Mathematics and Computer to children. Actively participated in organizing events such as health check-up camps and other community initiatives.
